

## CLASSIC STYLE

Tea for two or concerto grosso? Or maybe a cosy evening curled up with a book instead? What kind of life would it be without imagination or fantasy? It would be a vale of tears, not worth living! The works of the masters, old and new alike, inspire us and stimulate our own creativity. By the next day, the ideas start flowing thick and fast.

Whether it's a brilliant idea for the office or a makeover for the home, who dares wins. Because where would we be if nobody was busy creating tomorrow's classics?
